

## Big Welcome Home and Presentations to Alberta Track and Field Champion

**Norma Dorothy Chiddy Is Guest of Honor at Banquet Sponsored by Wetaskiwin Sports Association—Presentations Made of Beautiful Wrist Watch by Association and Pen and Pencil Set by Kiwanis—"Selling Alberta" Trio Also Congratulated**

One of the most delightful social functions in the history of the city was that, sponsored by the Wetaskiwin Sports Association, and held on Tuesday evening in The Pal. The occasion was to welcome home and do honor to Miss Norma Dorothy Chiddy, who, accompanied by her mother, Mrs. Frank Chiddy, returned on the afternoon train from spending a couple of weeks at the coast, following her string of victories at Banff in the Provincial women's championships conducted by the Alberta Branch of the Amateur Athletic Union of Canada, in which she won the allround championship. She equalled the 100 yards record of 12, smashed the provincial record in the 220 yards, setting a new mark of 28.45, made 4 feet 5 inches in the running high jump, a quarter of an inch short of the Alberta record, and took second in the running broad jump at 14 feet 5 inches, a truly remarkable showing.

Though a heavy rain was falling at the time, which doubtless affected the attendance, over one hundred and fifty citizens, in which the fair sex was very largely represented, took their places around the banquet table at shortly before seven o'clock.

Shortly afterwards Mr. and Mrs. Chiddy and Miss Norma were presented by Secretary McMurdo and escorted to the head of the table, while the jolly crowd vociferously acclaimed their joy by singing a three-verse parody on an old favorite community song "Our Norma, She's Back Home Again, Hurrah, Hurrah."

After the most excellent repast had completely satisfied the inner man, Mr. Chas. H. Russell, president of the Board of Trade, acted as toast master. He delivered a most appropriate address, lauding in particular the successful efforts of Miss Chiddy to not only bring honor to herself and family but to the city as well, and he praised the activities of the Sports Association which, though organized but a little over a year ago, had become recognized as one of the principal bodies of the community. He emphasized the particular pride of the populace in the fact that Miss Chiddy not only won three firsts and two seconds in the four events scheduled, but had equalled the Alberta record in the one hundred yards and set up a new provincial record in the two hundred and twenty yards run. He also referred to the presence at the gathering of the justly famous "Selling Alberta" trio, and their supervisor Mrs. A. Rodell, and that the occasion constituted also a welcome home from the Women's Institute contingent who had played their part so well at the greatest exhibition on the continent.

His Worship Mayor Montgomery, on behalf of the city, extended congratulations to Miss Chiddy, the Sports Association and the "Selling Alberta" trio. He dwelt at some length on the wonderful work accomplished through the Sports Association and emphasized the fact that but for those activities track and field athletes would not have made such rapid progress. He was pleased to know that the Alberta Branch of the Amateur Athletic Union of Canada was so pleased with the manner in which the Junior Championships were conducted last month that they were inviting the Sports Association here to handle them again next year.

At the request of the officers of the Wetaskiwin Sports Association, the assemblage arose, spending one minute with bowed heads in respect of the memory of the late Mrs. Ross M. Snyder, departed wife of a member of the Association Executive.

Chairman Russell announced that on account of illness in the family, Mr. A. P. Moore was unable to be present to personally extend congratulations on behalf of the Loyal Order of Moose, which order is a strong supporter of athletic endeavor.

Mr. C. D. Enman, on behalf of the Elks, extended congratulations from that body, being particularly pleased in that the Chiddy family were identified with the activities of their movement.

On behalf of the Sports Association Dr. N. A. Johnson, the president of the organization, presented Miss Chiddy with a gift from the Association, a very valuable gold Gruen sports model wrist watch, in case, as a mark of appreciation of the organization under whose colors she competed at Banff.

H. Odell, president of the Kiwanis Club, further announced the prizes won by the "Selling Alberta" trio.

## Weddings

### HODSON-OLSON

A quiet wedding was solemnized at the Manse, Wetaskiwin, on Friday, September 14th, at seven o'clock in the evening, when Edna Viola, second daughter of the late Mr. Ole and Mrs. Olson of Wetaskiwin, was united in the bonds of holy matrimony with James P. Hodson of Hobbema, the second son of Mr. and Mrs. J. H. Hodson of Wetaskiwin.

The bride was accompanied by her sister Florence, and the groom by his brother, William Hodson. The ceremony was performed by Rev. A. L. Elliott.

The bride was becomingly gowned in coral colored tulle and wore a necklace of pearls.

Mr. Hodson buys grain for the Alberta Pool Elevator at Hobbema, where they will make their home after their honeymoon spent in and about Edmonton.

### McKINNEY-McNAB

A quiet wedding was solemnized at the residence of Mr. and Mrs. Richard Hawkins, Wetaskiwin, on Saturday, evening, September 15th, at 7 o'clock, when Mr. Richard Daniel McKinney of Peace River district, was united in marriage with Mrs. Catherine McNab of Mulhurst. The ceremony was performed by Rev. A. L. Elliott in the presence of a few friends of the contracting parties.

### McNAB-SCOTT

A very beautiful home wedding was solemnized at the residence of Mr. and Mrs. James Scott, Wetaskiwin, on Saturday evening, September 15, at eight o'clock, when their only daughter, Margaret Lillian, was united in marriage with Robert John McNab of the Post Office staff, Wetaskiwin.

The bride was given in marriage by her father as Mrs. Chandelier played the wedding march. She was accompanied by her cousin, Miss Lucy C. W. Scott of Edmonton, while the groom was ably supported by the bride's brother, Wallace Scott.

The ceremony was performed by Rev. L. Elliott in the presence of a number of relatives and friends from Wetaskiwin and Edmonton.

The bride was very charming in a gown of ivory colored French satin, trimmed with real lace worn on her mother's wedding gown twenty-three years ago. She wore a bridal veil and orange blossoms and her only adornment was a rope of pearls.

The bridegroom wore a dress of white, rose-colored crepe de chene.

During the signing of the register Miss Scott of Edmonton sang "Because," and Mrs. Chandelier rendered a piano solo.

A dainty and bountiful buffet luncheon was served, presided over by Mrs. Hawkins, who was assisted by Mrs. Gibson of Strathcona, Mrs. W. Shantz, Mrs. D. W. Leahy, Mrs. W. Mellett and Norman and Gordon Scott, brothers of the bride.

The house was beautifully decorated with pink and white being the color scheme, with a profusion of autumn leaves and flowers.

The toast to the bride was proposed by Rev. A. L. Elliott, to which the groom suitably replied.

The large number of beautiful and useful gifts bore eloquent testimony to the esteem and honor in which the young couple are held by their many friends.

Mr. and Mrs. McNab will make their home in Rimbey, where Mr. McNab has an appointment in the Post Office.

AMPLE WATER SUPPLY IS NOW ANTICIPATED

During the past couple of days a test has been in progress at the new water well in the southern part of the city, and it appears as though a good supply of water has been found, as about 12,000 gallons a day has been pumped through a two and one-half inch cylinder. It is thought that 20,000 gallons a day could be pumped through a ten inch pipe. The Council will meet in special session this Wednesday evening, when it is expected that the driller will be instructed to proceed with the drilling of a ten inch well at this site.

These three clever girls from Wetaskiwin represented the Alberta Women's Institute at the Canadian National exhibition in Toronto. They are members of the Wetaskiwin W.I. Girls' club, and their supervisor, Mrs. Albert Rodell, is seen in the insert. From left to right, Norma Nelson, Doris Hanna (captain), and Loretta Vickers. The team went to Toronto as guests of the C.P.R.

## W.I. GIRLS' CLUB OF WETASKIWIN MADE FINE IMPRESSION AT THE CANADIAN NATIONAL EXHIBITION

"Oh, isn't it lovely to see three girls who use no makeup!" This expression was frequently heard in the women's building of the Canadian National exhibition in Toronto, when visitors saw the demonstration put on by the team from the Wetaskiwin Women's Institute Girls' Club which this year represented the Alberta Women's Institute at the big fair.

The girls' team drew the largest crowd in the women's building, says Mrs. J. MacGregor Smith, supervisor of Girls' clubs, who spent a week at the fair en route home from Scotland, and the girls did themselves and the province proud. The president of the exhibition, Mrs. Smith, said that the demonstration was one of the drawing cards of the show.

Three demonstrations were put on by the team. One day they told of the progress of the live stock industry in Alberta, followed by a talk on the manufacture of leather and of shoes. Concluding this talk, with feet shod in Edmonton-made shoes, they mounted a table and gave a demonstration of corrective foot exercises.

Alberta's wheat growing industry was the theme of the second demonstration. The girls told of the development of this industry in the production of the production of new varieties of wheat, and prizes won, wheat muffins. People would stand for an hour, Mrs. Smith says, to get a crumb of these muffins.

The dairying demonstration on which the girls won the privilege of going to Toronto from 10 other teams, was the third of the program. First came the talk on the dairying industry of Alberta. Following this the girls made cottage cheese and one pound of butter. The butter was spread on crackers, a bit of the cheese added, and this was handed out to the eager audience.

The team consisted of Norma Nelson, Lauretta Vickers, Doris Hanna, and Mrs. Albert Rodell of Wetaskiwin, supervisor, who was in attendance throughout the week. They "sold" Alberta effectively to hundreds of thousands of visitors.—Edmonton Journal.

## YOUNG PEOPLE IN AUTO ACCIDENT ON SUNDAY P.M.

Sunday afternoon a carload of young people narrowly escaped serious injury, when the auto in which they were riding ran off the road and hit an electric light pole near the auto camp. The car was being driven by Miss Myrtle Johnson, and it is thought she put her foot on the gas instead of the brake. Some of the occupants were cut by glass but nobody was badly injured. The upper part of the car was badly damaged.

Sylvan Lake, Sept. 14.—Between 3 o'clock and 4 Monday morning, fire destroyed the garage operated by J. Lareback.

Rex, the Alreidae, who was left on guard in the premises, escaped when the doors were driven in. Five cars, all stocks and a full mechanical outfit were destroyed.

## LACK OF CO-OPERATION DEPRIVES CHILDREN OF CHANCE TO WIN PEST AWARDS

The regular meeting of the Municipal District of Montgomery was held in the Council office on Saturday, Sept. 1st. All the Councilors were present.

The minutes of the last meeting were read and adopted on the motion of Councillor Johnston.

A letter was read from the Department of Municipal Affairs re a new form of tax roll. The letter was filed.

A letter was read from Messrs. Howatt & Howatt re a claim arising out of the sale of two horses that were impounded.—Moved by Councillor Bussard that settlement of this claim be made and that a cheque for \$20 in full settlement be issued. Carried.

The Department of Public Works wrote re the site of the steel bridge to be erected south of Wynne.

C. Maynard interviewed the Council re the business assessment on some lumber that he has stored at Wynne.—Moved by Councillor Johnston that this assessment be \$1,000.00. Carried.

The matter of the destruction of pests was then discussed by the Council. It was a matter of great disappointment to the Council that only one school secretary had taken the trouble to send in the number of points made by the children in the destruction of spiders, crows, etc. It was also reported to the Council that in some cases the secretaries had refused to take the tails, eggs, etc., from the children, so depriving the children of the opportunity of competing either in the Municipal competition or the Provincial.—Moved by Councillor Bussard that in the case where a school secretary neglects to send the tails, eggs, etc., taken by the children, then the children should endeavor to get in touch with the Councillor of the Division in which they live. Also that the award of the prize this year be postponed until the next meeting of the Council on the first Saturday in October. Carried.

Moved by Councillor Thompson that the bills and paychecks be passed for payment. Carried.

Moved by Councillor Maynard that the meeting adjourn. Carried.

## ST. ALBERT HOTEL DESTROYED BY FIRE

Edmonton, Sept. 15.—Starting from some unknown source in the garage adjoining, fire destroyed the St. Albert Hotel at St. Albert early this morning, at a loss estimated to be over \$25,000. The flames were noticed at about 3:40 a.m. and the alarm immediately was sent into Edmonton. Under Chief David, No. 2 pump and No. 8 combination made a flying dash to the fire, but were unable to save the three-story, frame building. All residents of the hotel were able to escape with their possessions.

Bride-To-Be: "Well, what did your friend say when you showed him my photograph?"

Her "Fiancee": "Nothing; he just pressed my hand in silence."

## Town Topics

Dr. McColgan is in Edmonton this week attending the meeting of the Alberta Medical Association.

Duck shooting season opened on Saturday last. Several parties have been out and brought in good bags.

Mr. and Mrs. Jack Bryholt, and daughter Margaret, spent Sunday at the home of Mrs. Carrie Krause.

Dr. Stevenson is attending the annual convention of the Alberta Medical Association in Edmonton this week.

Professor Walter Riedel of Concordia College, Edmonton, will relieve Rev. Appel at Blismark on Sunday next.

W. E. Chadwick of Wyoming, arrived in the city on Tuesday evening to attend the funeral of his father, the late H. E. Chadwick.

Miss Reta Ellis has accepted a position in the Wetaskiwin post office, succeeding Robt. McNabb, who has been transferred to Rimbey.

Mrs. Jas. Vickers, who has been visiting relatives and renewing acquaintances in Toronto, Ont., returned home Sunday morning.

Rev. Appel returned from the hospital on Thursday last, and expects to take charge of the services at Zion Lutheran church on Sept. 30th.

Dr. T. Marsch has returned to her home in Wetaskiwin after a week's holiday spent at the home of her parents, Mr. and Mrs. B. M. McKinney of Strome.

Mrs. Mathewson and son Jimmie, of Vancouver, B.C., spent the week-end at Mrs. Carrie Krause's. Mrs. Mathewson is a sister of Frank Bryholt of Wetaskiwin.

Dr. and Mrs. Conn and daughter, Barbara, who have been visiting with Mrs. J. B. Schreffels, returned on Wednesday for their home in Vancouver, accompanied by Miss Jean Redden.

Mrs. Rodell, and Misses Doris Hanna, Loretta Vickers and Norma Nelson, who were "selling Alberta" at the Canadian National Exhibition, Toronto, returned home on Sunday morning.

Dr. Gundeson is in Edmonton this week attending the annual meeting of the Alberta Medical Association. He is accompanied by Mrs. Gundeson. They expect to return home on Thursday evening.

J. W. Heric has received the appointment of Liquor Vendor at Peace River and expects to leave in a few days to assume his new duties. We understand the family will also move to Peace River shortly.

Julian and Urban Weller, former Wetaskiwin boys, motored up from Burlington, Wisconsin, arriving here on Sept. 14th to visit their uncle, Mat Weller and family, and renew acquaintances.

The first meeting of the Women's Institute Girls' Club will be held in the W.I. rooms on Monday next, Sept. 24, at 8 o'clock p.m. Election of officers will take place and business planned for the coming year.

The Women's Institute girls and Mrs. Rodell, supervisor, who represented Alberta at the Toronto Exhibition, desire to extend sincere thanks to the many organizations and citizens individually who extended assistance in the preparations and in other ways aided in making the demonstrations so successful.

Mrs. Savage of Calgary, Worthy Grand Matron of the Order of the Eastern Star, paid an official visit to Victory Chapter O.E.S. on Friday evening. She was accompanied by Bro. Dawson, of Edmonton, Worthy Grand Patron, and other officers. Visitors were present from Edmonton, Camrose, Ponoka, and other places, and a pleasant and profitable evening was spent.

Immanuel Church Sunday school held their annual picnic at Lucas Grove on Saturday last. The happy throng were conveyed to the scene of pleasure in cars and under the supervision of the teachers enjoyed an afternoon of races, games, etc. The usual supply of ice cream, candies, etc., kept the youngsters in a happy mood, as also did the good things provided at the supper table. The party came back to town fully convinced the picnic was one of the best yet.

Montgomery Brothers held their annual fashion parade at the Angus Theatre on Monday evening, when a fine display was given. All the ladies participating were from Wetaskiwin and district, with the exception of Miss Hill of Calgary, who had the distinction of winning in the beauty contest for Canada, and had the honor of representing the Dominion in the competition held at Galveston, Texas.

## Jury Declares Beating at Ponoka Mental Hospital Cause of Dr. Hobbs Death

**Blame Attached to Attendant Scott of Provincial Institution, Who Is Placed Under Arrest on Manslaughter Charge; Seven Others Charged With Beating Up Attendant Who Gave Information Sentenced to Two Months' Imprisonment at Fort Saskatchewan**

## Obituary

### H. E. CHADWICK

The funeral of the late H. E. Chadwick, who died suddenly on his farm near Westrose on Tuesday of last week, took place from Moore's Undertaking parlors on Wednesday afternoon, the interment being in the Wetaskiwin Cemetery. He was aged 64 years, and leaves a wife, and three children, namely H. T. Chadwick in Vermont, W. E. Chadwick in Wyoming and Mrs. N. E. Stapleton in New York. Deceased was very well known in the community, as he has resided here for about sixteen years.

### MRS. ROSS M. SNYDER

A shadow of gloom was cast over the community when news came over the wire on Thursday, September 13th, that Susan Marie, beloved wife of Mr. Ross M. Snyder, had passed from this life at Excelsior Springs, Kansas City, Missouri, where she had gone for medical treatment. Her husband and her mother were with her at the time of her death. The case seemed to baffie medical skill and the end came very unexpectedly.

The remains were brought to Wetaskiwin and the funeral service was held at the family residence on Tuesday, September 18th, at 2:30 p.m., conducted by Rev. A. L. Elliott. A great concourse of people gathered to convey their sympathy and share with the family their heavy burden of sorrow. Mrs. H. J. Montgomery sang as a solo "One sweetly solemn thought."

Banks of flowers bore eloquent testimony to the honor and esteem in which the deceased and family are held, among which were noticed tributes from The Family, Mrs. J. B. Schreffels, Mr. and Mrs. T. R. Rodgers, Mr. and Mrs. F. Westwood, Mr. and Mrs. J. N. Schreffels, Mr. and Mrs. A. N. Schreffels, Mr. and Mrs. N. M. Schreffels, Mr. and Mrs. Ketchin, the Root Family, Mrs. Patterson and family, the Masonic Lodge, the Kiwanis Club, Mr. and Mrs. T. Gould, Northern Hardware, Mr. and Mrs. H. B. French, Mr. and Mrs. C. M. Rice, Mr. and Mrs. K. Montgomery, Edmonton, Mr. and Mrs. Barnett, Mr. and Mrs. F. Ballhorn, Mr. and Mrs. C. W. Walie, Mr. and Mrs. F. Kiratlen, Major and Mrs. Baker, Mr. and Mrs. J. H. Walker, Mr. and Mrs. A. J. Taylor, Mr. and Mrs. C. F. Richards, Dr. Gulickson and family, Mr. and Mrs. V. C. French, Mr. and Mrs. Jas. Smee, Mutual Creamery, Wetaskiwin Sports Association, Mr. and Mrs. C. D. Smith, Messrs. Abousaffy and Sons, Miss Sullivan, Mr. and Mrs. P. S. Schaefer, Calgary, The Hunting Club, Mr. and Mrs. Wm. Deltz, Mr. and Mrs. B. S. Wallace, Brightview, Messrs. Whyte & Orr Hardware, Mr. and Mrs. Burrows, Mr. and Mrs. Nestor Begun, Mrs. and Miss Vold, Mr. and Mrs. Curt Smith, and others.

The deceased was 34 years of age, very devoted wife and mother, and of quiet, retiring disposition. She had a keen sense of justice and made friends wherever she went. She leaves to mourn her loss her husband, Mr. Ross M. Snyder, one daughter, Dorene, 7 years old, and one son, Junior, 5 years old, her mother, Mrs. J. B. Schreffels, two sisters, Mrs. Rodgers of Vegreville, Mrs. Westwood, and two brothers, Mr. J. N. and Mr. A. N. Schreffels, of Wetaskiwin.

The pallbearers were Messrs. C. H. Boyer, A. J. Taylor, J. F. Ellis, L. D. Montgomery, H. R. French and C. D. Smith.

Interment was made in the family plot in the Wetaskiwin Cemetery.

## POPULAR BRIDE IS GIVEN MISCELLANEOUS SHOWER

On Wednesday evening of last week, Mrs. William Mellett, assisted by Mrs. L. B. Chaffee and other friends, entertained in honor of Miss Lillian Scott, a bride of this week. A pleasant special time was enjoyed by about forty guests, everyone entering into the fun of a "Flower Contest" and a "Treasure Hunt," after which little Evelyn Turner and Ruth Chalmers wheeled in a gaily decorated baby carriage, heaped high with parcels of every size and shape. The charming bride-to-be was greatly surprised, but in a very self-possession manner opened the gifts and thanked the donors. The evening was concluded with dainty refreshments served by the hostess.

Following the inquest held at Ponoka by Coroner Dr. Brathwaite of Edmonton, Monday afternoon, in the case of Dr. Arthur Hobbs, a patient at the Ponoka Mental Hospital, who died on Saturday last, Mr. Scott, an attendant at the institution, was arrested on a charge of manslaughter. It is expected that he will be arraigned on this charge before Magistrate Scott on Thursday.

The text of the verdict of the coroner's jury, in the case, follows: "The jury, after considering the evidence adduced by the various witnesses examined have reached the unanimous verdict that the deceased, Dr. Arthur Hobbs, came to his death at the Ponoka Mental Hospital on Saturday, September 15, at 8 p.m. of acute pneumonia, the direct result of a severe beating administered by attendant Scott, an employee of the institution, on September 12 between the hours of 1 and 2 p.m.

The jury also find that attendant R. Lord, who was present at the time of the attack on the deceased was negligent in not reporting the incident, at once, to the medical superintendent, but attach no blame to the medical superintendent and stag in charge of the institution as, according to the evidence adduced, every care and attention was given the deceased immediately his conditions were brought to their notice.

As soon as the jury's verdict had been announced, Sergeant Brodribb, of the Provincial Police, took Scott into custody on a charge of manslaughter.

Seven other attendants at the hospital are under arrest following the death of Dr. Arthur Hobbs, and it is alleged the "mobbing" of an attendant by a group of fellow workers, according to information received on Monday by Hon. George Hoodley, Minister of Agriculture and Health.

According to the information received by the Minister, Dr. Hobbs, who was a former Royal Canadian Mounted Police veterinary officer and a great personal friend of his, was admitted to the institution for the second time and his condition was serious. He was not expected to recover.

The cause of his being admitted was a kick received from a horse many years ago which crushed portions of his skull and brain. Previously he had been confined at mental institutions at Guelph and North Battleford.

So serious has his condition grown that of late he had suffered from mental delusions and depression and was unwilling to eat. On occasions some persuasion and slight force had to be used to get him to accept food.

On the occasion under review, attendant Lord tried to feed him, but was unsuccessful. Then Scott came along and took charge of the patient. According to a statement by attendant Lord, the patient was beaten about the body by attendant Scott. Later Dr. Hobbs died.

After the death of Dr. Hobbs, a group of other attendants at the institution, causing him considerable injury.

Scott and the other attendants accused of beating up Lord were placed under arrest.

## BISHOP RIX IS CONSECRATED AS BISHOP OF CALEDONIA

Prince Rupert, Sept. 10.—In the presence of a congregation that thronged St. Andrew's Cathedral, Venerable Archbishop George Alexander Rix was consecrated Bishop of Caledonia on Sunday. The services lasted from 8 a.m. to 12:30 p.m.

Bishop Rix is a nephew of J. J. Rix of Wetaskiwin.

Mrs. Flanagan—"Was your husband in comfortable circumstances when he died?"

Mrs. Murphy—"No; he was half way under a train."

# "SALADA" TEA

Advertising unless true is wasted—We tell you "SALADA" Orange Pekoe is the best Orange Pekoe you can buy—and the most economical. A half-pound package is only 43c—Sold by all good grocers. Make a test in your own home.

THURSDAY, SEPTEMBER 20, 1928

### CANADA'S WHEAT CROP

The most recent Dominion report estimates the total wheat crop of Canada at 550,000,000 bushels, of which Alberta is credited with 170,000,000. If these figures are approximately correct the yield will be the largest the country ever produced, by about 75,000,000 bushels, and will for the first time pass the billion bushel mark. So large in fact is the known yield that its very bulk has not been without reactions in the wheat exchanges. If the announcement of the figures from Ottawa was not followed by a sharp decline in prices it was because the immensity of the crop had already been anticipated, and

also because frost is known to have done an unspecified amount of damage in some sections of the west.

It is idle to speculate on what will be the great money return from this great volume of wheat, the exportable surplus of which will be about 400,000,000 bushels. That will depend upon two factors of unknown quantity: the world price, and the grade of the grain. At an average price of seventy-five cents per bushel the surplus available for export would bring in something like \$300,000,000. The addition of any such sum of "wheat money" to the buying power of the farming population, already great by reason of successive good crops at good prices, invites the expectation of a season of tremendous business activity, in which alike wage-earners, merchants and manufacturers will share. Despite the uncertainties inseparable from the wheat market, it can be said that no country in the world is likely during the year to enjoy so large a measure of prosperity directly induced by one farm crop.

### WHAT IS JUNIOR RED CROSS?

In the minds of many people to-day there is unfortunately a sad state of ignorance as to the real place of Junior Red Cross in the province. To explain its aims and organization the

Alberta Division has issued an excellent little publication "What is Junior Red Cross?"

A little lame girl, her legs in splints, smiles from the front page, in company with a roly-poly baby with club foot. These two pictures, in themselves make a striking appeal and make the words "Alberta Juniors are helping them back to health and strength."

The definition of Junior Red Cross is simply given, that he who runs may read. It is "a movement assisting teachers to inculcate better health ideals, citizenship and service to others, in those under their care."

Last year in the twelve hundred schoolrooms where Junior Red Cross branches are found, thousands of our Alberta boys and girls were learning the secrets of good health, practising the daily hygienic habits which will assure them of long life and a good constitution, as well as contributing to the maintenance of those of their fellows who have the misfortune to be sick or crippled and are patients in the Calgary and Edmonton hospitals under the Red Cross flag.

### ALBERTA'S OIL INDUSTRY

The occurrence of oil and gas in many parts of the province of Alberta has been known for many years. In the Medicine Hat (Redcliff) gas fields drilling began so far back as 1888. In 1908 and again in 1914 there was considerable activity in drilling, particularly in Bow Island gas field, the Foremost, the Viking, and Turner Valley fields. There are numerous other districts which have been explored and many which are potential gas producers. Many of the oil and gas ventures were of the "wild cat" variety during the ill-fated Calgary boom in 1914. During the early vicissitudes of the industry, however, much valuable knowledge was gained, even from the failures, which were not few. Of the latter many were due to inaccurate or insufficient geological information, one cause being the theory that formations beneath Mesozoic were not worth testing. Oil and gas enterprises in the early days, too, did not possess that equipment which is so great a factor in winning success today.

The year 1925 saw the industry in Alberta entering upon a remarkable period of development. In that year the production of crude petroleum in Canada was more than double that of any previous year at 332,001 barrels, and of this 143,134 barrels came from Alberta. The Turner Valley field was the principal source of production, and in 1925, the famous Royalty No. 4 well produced at the average rate of 430 barrels per day. The wells in this field yield a wet gas, from which a very high grade of crude naphtha is separated. The well mentioned also proved that much better producing formations exist in a lower horizon. Since then considerable progress has been made, and today the Alberta fields are commanding widespread attention.

Theo. A. Link, geologist to the Imperial Oil Company, Ltd.—which is the most important enterprise in the industry, controlling the chief workings and largely responsible for recent scientific development of the fields—stated in June this year that "there are only three fields to date which could be classified as proven areas." He considers that the discovery of oil and gas in the province is not surprising considering that practically the whole of it

is underlain by sedimentary rocks which can be regarded as possible sources of hydrocarbons. The three fields referred to are the Turner Valley, the Irma-Wainwright, and the Skid. In each region thrilling activity has been greatly increased during the last few months. This has been induced by the good results attending Imperial Oil and allied operations in the Turner Valley, the success of several wells in the Irma-Wainwright field at a depth of about 2,300 feet, which are now commercial producers, and the encountering of heavy asphaltic oil in the Skid zone by the Devonian Petroleum Company last year in Well No. 1, followed by other successes.—Canada (London Weekly).

### GETTING THIN

(Walt Almon)

It is a good thing to reduce, and shake a ton of tallow loose, if you're extremely fat; it is a fine thing to be slim, to have an outline neat and trim, we're all agreed on that. But fakers and impostors wait in ambush for the heavy skate who would be rid of it; and you're safely do the trick and not be broken down or sick, you must be on your guard. Consult a doctor of renown, who is a fixture in your town, a doc who knows his trade; he will inspect your springs and heels, examine you from head to heels, and help you make the grade. There may be certain reasons why you're likely to curl up and die if you reduce too fast; there may be reasons why it's wise to stick a while to all those pills which make you look so vain. The doc will study all your curves, inspect your teeth, your blood, your nerves, and analyze your beard; and when he starts you on your way to lose some seven pounds a day, no trouble need be feared. The doc will have a well drawn chart that shows your liver and your heart, your wishbone and your hat; you are to him a special case, and he would think it a disgrace to fail to banish fat. A million dangles, a million males, are stepping daily on the scales, in hopes of losing weight; so many hanker to be thin the fakers ply their games of sin, the revenue is great. There's danger in "reducing" acts; the learned physicians sprang the facts and warning day and night; don't ever try to lose a pound unless there is a doc around to see you started right.

### ONE WAY TO STOP WAR

It is proposed to submit to the legislature of Denmark a bill which, in case it becomes law, would place should war break out, in the firing line, the head of the state, all male blood relatives of the head of the state sixteen years old or over, all civilian officials and military, naval and air officers attached to the household of the head of the state, the prime minister and other secretaries of state, and all bishops, prelates, or ecclesiastics of similar rank. The bill would also create a secretary of state for peace and a department of ministry of peace. Evidently no legislature would pass such a bill, but we all know that the nation having such a law would probably follow the Scripture injunction to "seek peace and pursue it."—Our Dumb Animals.

### DID YOU EVER STOP TO THINK

(By Edson R. Walte, Shawnee, Okla.)  
R. W. Fisher, editor of the Walla Walla (Washington) Union, says:  
That most every town just happened at the start.  
That its growth depended on faith.  
That when a man has faith in a town he is proud of it.  
That when a man is proud of his town he is proud of his community, his state, his nation.  
That when he is proud of his town he will fight for it, just as he will fight for other things he considers as his.  
That one of the biggest assets is the man who says it is "My town."  
That when you get a whole group to look upon it as "My town" you cannot stop the growth of that town, for other folks want to cast their lots with the place of that sort.  
The sooner it becomes "My town" to all the people, the sooner it will grow.

### BABY GIRL HAD DIARRHOEA WHEN CUTTING TEETH

Mrs. A. J. Murray, Gulf Lake, Sask., writes:—"Last summer, my baby girl was cutting teeth and became very weak with the effects of diarrhoea. I didn't know just what to do for her as she couldn't retain anything. At last one of my neighbors said to me, 'Haven't you any'

why, I wouldn't be without it where there are children."  
My husband went to town and got a bottle and the very first dose helped her wonderfully, and in three days she was well over the diarrhoea and was running around as well as ever."  
Put up only by the T. Millburn Co., Limited, Toronto, Ont.

ALWAYS a great car... always an outstanding value... always a "Successful Six"... Pontiac Six now earns its right to even more spectacular success.

Sweeping new refinements in the sturdy Pontiac Six-cylinder engine... for example, New Marvel carburetor, improved manifold... add new and greater smoothness to Pontiac performance.

New, smarter, smaller wheels, with larger tires, further enhance the sparkling beauty of Pontiac's "Body by Fisher".

You can drive Pontiac Six as far and as fast as you wish with perfect peace of mind and security. All of Pontiac's famous stamina is there... and all the quality features which won Pontiac its amazing success in the past... the famous G.M.-R Cylinder-head; the foot-controlled headlights; the Lovejoy Hydraulic Shock-Absorbers, etc.

Spectacular success could not help but reward this most recent evidence of Pontiac's progressive policy.

Come in and learn why Pontiac is winning increased popularity throughout Canada. P-15-B-285C Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.

### P. C. PETERSEN GETS AMONG THE BIG TIMBER

After leaving Santa Rosa the country is mostly mountainous, still there is a good deal of dairying and fruit growing, also mining and saw-mills. We came through a stretch of country about 40 miles, through practically solid redwood, where you had to wind between and around the big trees, but they were building a public highway through this particular forest at a cost of \$70,000 per mile. Night was coming on, so we had to camp but we were lucky in finding a nice

little spot that was bare of trees. After we had our tent pitched we discovered that our camp stood within ten rods of a big pile of dynamite, also we found out that some 25 stumps had been loaded ready to fire the next morning. Well, before we got our breakfast, a man came and asked us to vacate as soon as possible, as they were going to blast out the stumps, so he stayed with us and went with us around a hill where we were safe and where we could see the explosions, which we enjoyed very much. To give you an idea of the size of the different trees we will give you the

following dimensions: Freemont is the name of the tree where Freemont camped in 1846, returning with his wife and daughter in 1888 to show them the tree. This tree is hollow and the floor space inside is 13x20; 75 sailors have been in the hollow at one time; the tree is 285 feet high, 60 feet in circumference and 20 feet in diameter. Jumbo is 250 feet high, 57 feet in circumference, 19 feet in diameter. Giant is 305 feet high, 66 feet in circumference and 22 feet in diameter. There is 425,516 feet of lumber in the tree, enough to build 30 houses, with 5 rooms each, or will cut over 1,250,000 shingles. This tree is 4,500 years old. We could go on to enumerate more trees of similar size, for a lot of them are named, such as McKinley, Three Twisters, Grant, Roosevelt, Three Tracks, Sherman, Hen and Chicks, etc.

Just before we got out of the redwood forest, a man stopped us about a half mile from where they were blasting, and informed us that they were shooting three stumps, one about 10 feet in diameter, and when the shot went off, we saw roots and stumps fly 200 feet in the air. Of course the road was blocked, so we went to see them clear the way. They had two caterpillar tractors at work dragging the stumps out of the way, and in about three quarters of an hour we were able to proceed on our way. The following night we camped again near the ocean. There seemed to be one particular rock that looked to be the size of a good sized house from where we were, which was some 300 or 400 feet above the ocean level. The ocean washed this rock during high tide on side. After having our supper that evening, we walked down to the beach to hunt relics, which we found plenty, especially sea shells. We climbed this rock. It seemed to have a natural path on one side, and we found that there was a nice little pasture on the top of it, about 2 acres, in fact sheep were climbing upon it and grazing. In the morning Arthur and Bruce went down to get some starfish, and while they were working and hunting, unnoticed to them, the tide came in, and if it had not been for a clam digger being there, they would have been marooned until low tide. Our trip further north to Reedsport, Ore., where our son William, lives, excepting that we got stuck in a newly built road, was non-eventful.

In our next letter we will tell you and describe our trip to Portland, and about Mount Hood.

Yours truly,  
P. C. Petersen and Family.

### USE OF ALBERTA COAL IS DEMONSTRATED AT FAIR

Alberta's splendid case for the sale of coal in Ontario and Eastern Canada was given a most encouraging fillip at the Canadian National Exhibition, Toronto. While the comparatively small shipment of 60,000 tons was completely exhausted very early in the season, the big surge of interest shown at the Exhibition by Ontario and Eastern Canadian home owners leads to the very optimistic indication that heavy orders for Alberta coal will be produced there after the New Year.

The Province of Alberta display, which was very cleverly arranged, drew the attention of tens of thousands of people, and those in charge of the exhibit were rather startled to find that the vast majority of visitors had little or no knowledge whatever of Alberta coal or its great possibilities. Almost invariably the visitors, after hearing the brief story, asked for further information and signed cards giving local coal dealers' names and requesting more information.

General Steel Wares Limited, makers of McClary Stoves and Furnaces, realized the possibilities of the situation and erected a special marquee in which a McClary Furnace and a McClary Range were set up complete, connected to the chimney, and gave a continuous demonstration of the hitherto little-known qualities of Alberta coal, both for heating and cooking.

Through a special arrangement with the Province of Alberta Trade Commissioner, Mr. Howard Stutchbury, a neatly arranged pyramid of Alberta coal, with attractively placed cards telling about the exhibit, was grouped in front of the large marquee. Mr. Stutchbury was much impressed with the wonderful assistance rendered by the McClary salesmen and personally thanked the General Manager of General Steel Wares for the splendid and entirely unsolicited educational work the exhibit had done for the Province of Alberta.

"The McClary exhibit soon became something very much more than a commercial enterprise," said Mr. Stutchbury. "The Hon. Howard Ferguson, Prime Minister of Ontario, went out of his way twice to visit the marquee."

Mr. Stutchbury said that it would be impossible to estimate the number of people that visited the Alberta display and the McClary Furnace demonstration, as thousands upon thousands of people attended these exhibits during the fourteen days the great Exhibition ran. Conservatively speaking, however, he felt that around 100,000 people must have been told the interesting and economical story of Alberta coal. He was most optimistic about the Ontario situation and believes that next year will see a marked improvement in that market.

### ENJOYING POOR HEALTH

Ontario's chief medical officer, Dr. J. W. S. McCullough, has been telling Canadians some unpleasant truths about health conditions in this country. In an address to the Academy of Medicine at Toronto, reprinted in the Public Health Journal, he insists that "we have too much of the luxury of sickness in this country." It is estimated, he says, that sickness costs Canada \$50,000,000 a year, and sickness originates and maintains a large proportion of the poverty of the country. Thirty-four per cent. of our entire mortality, Dr. McCullough says is of external origin and therefore

preventable. From 45 to 60 per cent 105,136 persons died in Canada last of the illness is preventable. The bureau of statistics states that year. It is rather startling to be told that, had the proper precautions been taken, more than a third of these might have escaped the grim reaper. Dr. McCullough quotes the statement of Louis I. Dublin, statistician of the Metropolitan Life, to the effect that \$6,000,000,000 a year might be saved in the United States by the application of modern preventive medicine and public health measures, and he estimates from this that Ontario, if

it would, might save its people \$164,000,000 a year by taking proper health measures. Going at the problem another way, he says 2 per cent of the

population of Ontario is ill all the time and unable to work. At least half of this illness, he believes, could be prevented.—Vancouver Province.

# "WINGS" IS GREATEST ACHIEVEMENT OF MODERN TIMES

No picture has ever created such a sensation as "Wings," the thrilling aviation film. This picture is most opportune when the whole civilized world is enthralled about aviation as a result of the notable achievements of transatlantic flyers.

"Wings" takes the audience back to the aviation of ten years ago, when that science was learning the costly but beneficial lessons of the World War. The part played by during fighters above the clouds in machines which were not far removed from the experimental stage is one of the most stirring and amazing exhibits of courage and bravery that the human race has ever known.

This master road show production carries its own musical director and score, together with very astounding realistic synchronized sound effects. It is difficult for one to describe the thrills and emotions which one feels when one hears and sees this outstanding achievement. The effects carried with this production are the same absolutely as heard in the larger cities of Canada and United States.

Your only opportunity to hear and see this production this season will be at the Angus Theatre, one day only, Wednesday, Sept. 26, with a matinee at 4:15 and evening show at 8:15.

## GOVERNMENT ASKS ANALYSIS OF OFFER ON ALBERTA LINES

Edmonton, Sept. 19.—"We are having an analysis of the Canadian Pacific Railway Company's offer for the Edmonton, Dawson and British Columbia, Central Canada and Alberta and Great Waterways Railways, by the provincial auditor, to see just exactly what it means. Until the results of this work are laid before us we are not in a position to state whether we will accept or reject," declared Premier J. E. Brownlee on Tuesday, when asked regarding disposition of the latest offer of about \$22,000,000 for purchase and operation of the Government-owned lines.

The exact terms of the offer which is not a cash transaction, but provides for payment over a term of years, were kept a guarded secret by the Premier who contented himself with stating that it was the largest offer yet made for the Government-owned roads and that it was not far off the price which the Government, on June 13 last, intimated to both the trans-continental railways, would be accepted.

## FINED \$300 FOR UNLAWFULLY MANUFACTURING LIQUOR

Pleading guilty to a charge of having a quantity of liquor unlawfully manufactured, in his possession, John Pryzner, a farmer, residing near Shepard, Alberta, was fined \$300 and costs by Magistrate Sanders in police court on Friday morning.

He had been charged under the Excise Act, and C. A. James, of the Customs staff, prosecuted. Pryzner's farm was visited by customs officers recently, and the spirit seized.

## SUGAR BEET CROP BIGGER THIS YEAR

Lethbridge, Sept. 14.—Five thousand three hundred acres of sugar beets will be harvested this fall, representing an increase of 20 per cent over last year's crop, according to a statement made on Wednesday by T. George Wood, general manager of the Raymond sugar factory. The task will begin on Sept. 25, weather permitting, and actual slicing of the beets at that factory will commence about Oct. 10. The sampling of the beets to test the sugar content will be started next week, and after that it will be possible to predict the quantity of sugar which the Alberta branch of the Utah-Idaho firm is likely to produce this year.

## ALIX MAN HURLED FROM CAR; KILLED

Alix, Sept. 14.—Hurled from his car as it was overruled on a rutty and hilly road, two miles south of here, on Thursday evening, Douglas Puffer, son of W. F. Puffer, former Liberal M.L.A., for Lacombe, was instantly killed, his neck being broken by the impact.

A Mr. Walston, who was driving with Puffer, escaped with a shaking up.

The two men were driving in a roadster from Mirror to Alix at the time of the accident. The road at this point runs through hilly country and was in bad condition due to rains.

The deceased is well-known in the district and had lived in Alix for about five years. He was engaged in cattle buying. A widow and one daughter are left.

## THRESHING IS PROGRESSING IN ALL PRAIRIE PROVINCES

Winnipeg, Man., Sept. 17.—While wheat now coming to the elevators in the West continues to grade well, the Canadian Pacific Agricultural Department reports, it is anticipated that later cut grains will, from areas in Saskatchewan and Alberta, suffer considerable reduction in grade on account of frost damage during the first week of the month. Apart from late oats for feed, cutting is practically completed in the three provinces and threshing is general. The effect of the use of combines and motor grain

trucks is evident in the heavy deliveries during the week to country elevators. The livestock situation continues favorable with a good market demand.

Threshing operations in Manitoba are delayed by showers, but now are general with 25 per cent wheat completed. Grades are favorable with two and three northern predominating. Yields vary but indicate a general average of from 22 to 25 bushels per acre. About one half wheat crop this year is of durum variety.

Wheat in Saskatchewan is grading two and three northern but frost will reduce later cutting. Yields vary from 20 to 35 bushels. 25 per cent wheat is threshed, 35 cents and 60 barley.

In Alberta wheat yields vary widely from 25 to 40 bushels 20 per cent cutting is completed and threshing is general with 20 per cent wheat and 30 to 45 per cent oats and barley through the machines.

## TRAIN EMIGRANTS ON SCOTTISH FARM

London, Eng., Sept. 17.—Scotland is to have a farm training centre for overseas emigrants, which will extend the governmental scheme already in existence at Brandon and Croydon, in England. The government have purchased Columbia and Strawfrank farms, on the Cairnair estate, Lanarkshire.

The remarkable response to the recent appeal for harvesters for Canada suggests that many in Scotland who were disappointed under that scheme may turn their attention to this training centre, the object of which is to instruct unemployed young men in farming operations with a view to their ultimate settlement overseas. Training in practical farming, including the handling of cattle and horses, is the object in view, and special regard will be had to the conditions that prevail in Canada and Australia. The farm will be properly stocked and the men will be under the care of instructors who have special knowledge of farming conditions in the Dominion.

The Ministry of Labor is hopeful that the scheme will be in operation by the end of this year. The number of trainees will be approximately 150 at one time, and the period of instruction will be from 10 to 12 weeks.

## INTIMATES C.P.R. MAY HELP SERVE PEACE DISTRICT

Grande Prairie, Sept. 17.—Returning thanks for the reception tendered them here, E. W. Beatty, K.C., president of the C.P.R., stated that he and his associates had come West on the annual inspection trip, and that they had been fortunate in crossing Canada at a time when conditions were perhaps nearer the ideal than they had ever been. The Peace River country was new to most of those who were travelling with him, and all were acquainted by a desire to know the country and its possibilities. They came prepared to be impressed and they hoped to find out through contact with the people what were the country's prospects and problems.

The Canadian Pacific, he said, had no direct access to the Peace River country, but while the company was not new in the country, it should be remembered that it was a very large system and that it had been a habit of going into those places where it thought it ought to be, sometimes even without invitation.

The Canadian Pacific had been in this part of Canada acting as the operator and agent for the owners of the I.C.D. and B.C. railway when things were at a low ebb, and when there were many difficulties attached to the task of operation. When no one else would take the task in hand, and the Government was not in a position to do so, the Canadian Pacific had been drafted to do the work, and it could not be said that they had not done that work faithfully.

During the past two years, the Peace River country had been restored to a place in the sun, and prosperity had given it new hope.

"If I am able to make a forecast," he said in conclusion, "the Canadian Pacific may yet be an important factor in finding an ultimate solution of your transportation difficulties."

## NEW UNION MOVE BY CANADIAN CHURCHES

Winnipeg, Sept. 14.—It was reported yesterday at the session of the general council of the United Church of Canada that conferences have been held with the synod of the Reformed Episcopal church in Canada, and that the latter church, under certain conditions, was prepared to recommend union to its congregations with the United church. The conditions were that the synod be assured of the sympathy of the United church for the furtherance of its type of worship wherever opportunity presented itself, and also of the continuance of the Episcopate within the group.

It was further revealed that conferences are also being held with a view to union with the Christian Church of Ontario.

Until the committee on law gives a ruling on the word "in the constitution of the United Church of Canada, ordination of women in a church will not be permitted.

This was decided at last night's session of the General Council when the report of the ordination committee was submitted by Mrs. Nellie McClung of Calgary.

## H. T. JAFFRAY ASSISTANT GENERAL MANAGER IMPERIAL BANK OF CANADA

Mr. Jaffray is now located at Head Office, succeeding the late Mr. Gerald D. Boulton as Assistant General Manager.

Mr. Jaffray is very well known in the West. Almost thirty years ago (1899) he went to Portage La Prairie as a junior clerk, and since then has served in many capacities in different parts of the country. Mr. Jaffray was appointed Assistant General Manager for Western Branches, with headquarters in Winnipeg in 1922.

## ALBERTA THIRD IN PRODUCTION OF RAILWAY TONNAGE

Ottawa, Sept. 15.—Alberta has been occupying a much more prominent position as a producer of railway traffic this year than last. The analysis of tonnage by the Dominion bureau of statistics is now available for the first six months of the year.

This shows that all Alberta has been the third largest producer of tonnage among the provinces for all but one of the six months of the present year. In that one month it held second position. In the first half of the last year it was below both British Columbia and Nova Scotia in most months.

First position among the provinces has been held this year by Ontario as usual, with Quebec second, except in the month of January, when Alberta held that rank.

## FIRE DESTROYS BASSANO WHEAT

Bassano, Sept. 14.—Forty acres of wheat were destroyed by fire Thursday afternoon on the farm of Elmer Paul, a few miles East of Mankipie. A strip of prairie seven miles long was also burned black and it required the efforts of more than 150 men fighting for four hours, to put out the blaze.

The fire is believed to have started by a lighted match or cigarette butt, tossed from a passing automobile. The blaze began in the grass along the roadside and from there spread to Paul's wheat field and eastward to prairie pasture.

## PUTS ALBERTA'S AVERAGE YIELD AT 28 BUSHEL

Winnipeg, Sept. 16.—A wheat crop of 534,621,412 bushels from 23,088,505 acres is estimated for this season's yield in the prairie province in a report published by the Manitoba Free Press.

The Free Press intimates that Manitoba will have an average yield of 22 bushel per acre and a total crop of 57,202,750 bushels from 2,600,125 acres; the average yield for Saskatchewan is placed at 21 bushels per acre and a total crop of 289,607,534 bushels from 13,799,854 acres, while for Alberta the estimate is 28 bushels to the acre with a total yield of 187,610,728 bushels from 6,707,556 acres.

Frosts have done material damage to grades of wheat and yields in the matter of very late oats and flax, so that while the volume of wheat will be much the largest ever produced in western Canada, it will grade lower than a number of crops which have preceded it. However, it is estimated that there will be a much larger percentage of both Nos 1 and 2 northern than was the case in 1927.

Hail and frosts have caused the greatest losses during the 1928 season. Hail losses in Alberta are estimated at close to 500,000 acres and in Saskatchewan 1,000,000 acres, the bulk of the damage being to wheat crops.

## ALBERTA'S AUTO REGIS- TRATIONS REACH 82,250

Edmonton, Sept. 15.—Alberta's auto registrations are likely to top the 85,000 mark this year, according to present figures released on Friday by Ed. Trowbridge, deputy provincial secretary.

The registrations have already, to date, exceeded the total registrations of last year, by approximately 10,000.

Here are the actual figures: Registrations for 1927, 72,364; registrations to date for 1928, 82,250.

Just how high the final total may go, will depend on how well the farmers "cash in" on their harvest this year, and as there are branch offices in Calgary, Lethbridge and Medicine Hat issuing licenses, in addition to those going out from head office almost anything may happen yet.

Revenue from auto licenses will naturally show a big increase also. The actual revenue for 1927 from this source was \$1,319,482.50 and the estimated revenue this year is \$1,500,000.

There is likewise a big increase in the gasoline consumption and a corresponding increase in revenue.

For the fiscal year which ended March 31 last, the estimated revenue is about \$550,000, but this estimate also is likely to be exceeded by the actual results, and the final figure probably will be around \$800,000.

The severity or mildness of the winter months will determine to a large extent the final figures. Last winter being exceptionally mild the gasoline consumption for January, February and March of 1928 was exceedingly high, being almost double that of the corresponding figure of previous years.

## EUROPE DECIDES TO SOLVE PROBLEM OF REPARATIONS

Geneva, Sept. 17.—Europe decided yesterday that the time had arrived for complete and definite settlement of the reparations problem. To that end the statesmen of the "Big Six"—Great Britain, France, Germany, Italy, Japan and Belgium—decided to constitute a commission of experts to study the matter.

No agreement was reached concerning the German request for total evacuation of the Rhineland, but an accord in principle was achieved whereby

both this subject and the question of replacing the Allied troops by a special commission of control will be handled by special official negotiations.

Germany accepted the allied idea of constituting what is called a commission of "verification and conciliation." The "Big Six" who met yesterday were split, however, on the question of how long this control commission should function.

Canada's forest lands of fine timber alone would cover 5 Spain, or 14 states of Missouri.

## EASTBOUND MAIL TRAIN ROBBED FRIDAY NIGHT

The mail car on the east bound passenger train Friday night was broken into and robbed somewhere between Calgary and Munson. This car is sent out from Calgary under seal and the crew goes aboard at Munson Junction. It was at this point that the robbery was discovered but the exact point at which the thieves boarded the car is undetermined.

When the mail clerk entered their car they found the seal had been

### ONTARIO PIONEERS COMMEMORATED

Along 50 miles of the Huron road, westward to Goderich, there were unveiled on September 3 six cairns, commemorative of the pioneers who opened up the Huron tract, and a century ago this month completed the cutting of the first road through the Canada Company's lands to Lake Huron.

In a long line of motor cars, the speakers at the ceremonies, civic officials and historical society officers, covered the distance in perhaps an hour and a half of actual travel, over the route which John Galt advertised in the Ancaster Gazette a century ago. In these words: "This road, when completed, is going to make the

Journey from Hamilton to Goderich possible in four or five days."

The program included formal opening of the last section of concrete pavement, between Seaforth and Clinton, on this road, known today as No. 8 Highway. Hon. J. D. Monteith, provincial treasurer, and W. L. Saunders, acting divisional engineer at Stratford, officiated.

**Wealth of History**  
When the children of this and other generations shall ask: "What mean ye by these stones?" there will be ample material for their information in the written record of addresses delivered beside the cairns at Fry-fog's tavern at Stratford, Seebeck's Hill, Mitchell, Harpurhey, Goderich and Clinton. In wealth of historical matter, especial excellence was found in the speeches of Brig-Gen. Crutchshanks, Ottawa; Louis Blake Duff, of Welland; and F. G. Sanderson, M.P. South Perth.

The Stratford Historical Society is given credit for the idea of this celebration. The Huron Tract Association, formed last May, carried out at seven points in the Counties of Perth and Huron, without alteration and upon scheduled time, a program in which all participants were home talent. Chairmen and speakers, those who unveiled the cairns, the man who built them, the bands which played at each ceremony, were of the Huron Tract. General Crutchshanks, an exception, was welcomed in his capacity as chairman of the Sites and Monuments Committee of Canada. Archbishop Williams is from London, but there need be no apology for one whose disease is called Huron.

This prevalence of domestic actors in the drama of the day was but one indication of the spontaneous feeling with which the communities

concerned lent themselves to the proceedings.

Town streets were decorated, and about the several cairns were flowers and flags. Countless farm gates, gay in ribbons and floral designs, made a wonderful picture along the road. At Dublin, which was not a stopping place, hundreds of people gathered at the highway to cheer the motorists.

**Crude Implements of Toil**  
Prominent in display at the decorated farm gates, and at some of the cairns, were implements of toil, reminiscent of early days in the Huron Tract. A great ox yoke formed the keystone of more than one arch; numerous spinning wheels were noticed, and at one place a specimen of the old fall with which the pioneers threshed their grain. These things, indeed, suggested the keynote of the celebration, as expressed by Louis Blake Duff, president of Ontario Historical Society, in the words: "We who reap here, let us not forget the man who plowed and sowed and then went to his long rest before the harvest."

Speakers without exception paid their tribute to the courage, wisdom and perseverance of the men of 1928 and those who followed them. Senator J. P. Rankin compared them with immigrants of today, who "want to be financed and guaranteed, and a few years ago even had the nerve to ask the government to require the banks to give them loans without security." Hon. J. A. Macdonald, Minister of Trade and Commerce, from the Huron border, drew a practical lesson for adventurous young men of the present generation, and urged them to launch out and develop the remaining hinterlands.

**Still Call for Pioneers**  
"When this road was opened up," he said, "there was no such thing as a steam railway, a telegraph line or a telephone. There was no railway mail service. Electricity had never been heard of. Communication was on horseback or on foot. These men came with their own resources into the primitive forest and by their own resources they built homes. In our modern world, with 75 per cent of everything we want provided for us by some other part of the community, we have become interdependent. Eyes of the world today are turned upon the Dominion. Its possibilities are as great for the young people as the Huron tract had been for the pioneers."

"To young Canada I say this: There is only 150 miles of land running north and south settled. There are vast hinterlands, yet unknown. You haven't to put up with what the pioneers suffered. You may still keep in touch with your own people

### HEBREWS OBSERVE THEIR NEW YEAR

With sunset on Friday Hebrews in Edmonton and the world over will begin their celebration of the festival of New Year known in Hebrew as Rosh Hashana ushering in the year 5689 with prayers and meditation.

Saturday the Jews will observe their New Year holiday and all Jewish stores and places of business will remain closed.

Originally the Hebrew New Year marked the opening of the agricultural and economic year in Palestine. This day was not expressly called New Year's Day, but it was undoubtedly thus regarded by the Jews at a very early period. It was celebrated by the resting from all labor and by the blowing of the Shofar, ram's horn, a custom still prevailing in the synagogue.

However, as the agricultural background faded away from Jewish life, the rabbinic authorities shifted New Year's Day to memorialize the beginning of creation and, based upon scriptural passages, it became the Judgment day of the Jewish calendar. Now practically all the prayers of the day carry this message of judgment, marked by self-examination, repentance and reconciliation with men and God.—Journal.

### 1,500 APPLY FOR LICENSES AS THRESHERS

Approximately 1,500 threshers' licenses have been issued for 1928 harvesting since Aug. 1 according to Hon. George Hoadley, minister of agriculture and health and applications are being received daily for large numbers.

Continuing the Minister said that the applications were slightly higher than at the corresponding period a year ago. While he did not think that all licenses necessarily had been used to date, the large number of applications indicated a desire on the part of farmers to be ready to thresh as soon as possible and also the fact that harvesting is making good progress.

### IS YOUR CHILD HANDICAPPED?

Does your child's nose run or is it sore? Does the child snuffle. Are the eyes red? Does the child seem dull? Does it stand and look at you with open mouth? Does it put its hands to its head as though it had earache? Does the child sleep with its mouth open? Does it sneeze? If the answer to any of these is yes, ask the doctor if the child has adenoids or large tonsils.

Tonsils often become diseased and stick out into the throat. Sometimes diseased tonsils do not get any larger, but contain little pits filled with pus. Diseased tonsils hold poisonous germs which may cause throat trouble or may be carried to other parts of the body and cause serious sickness. Adenoids look like a little head of cauliflower colored red. They grow in the back part of the throat where the nose and throat joins and can be seen only by the doctor with a special mirror. They stop up the nose and make the child breathe through its mouth. When the child breathes through the mouth much dust and many germs get into the body. Adenoids should always be removed. Earache often means a child has adenoids. Earache always means the child's in danger of getting deaf, also there is the danger of running

ears. A doctor should treat a running ear always. When adenoids grow or tonsils become diseased the glands of the neck try to carry off the poison. This overwork makes glands enlarge and lumps are visible on the neck.

Diseased tonsils and adenoids are reservoirs for poisonous germs that are frequently carried to other parts of the body and cause sickness, inflammation and heart disease often come in this way. Stomach, bowel or lung disease may also arise from the same source. A child with adenoids and diseased tonsils can get the communicable diseases such as scarlet fever, diphtheria, etc., very easily.

Often children who seem stupid and who do not learn rapidly, can be made healthy and normal by the removal of diseased tonsils and adenoids. Don't wait thinking they will get better. It is dangerous.

Health literature can be obtained free from the Canadian Red Cross Society, 408 Civic Building, Edmonton, Alberta.

### PENSION PLAN PROPOSED

For the support in old age or infirmity of a class of men and women who have been set aside for life from gainful occupation, The United Church of Canada proposes to provide a pension plan under the title of the Pension Fund of The United Church of Canada. The plan has been drawn up during the past three years by actuaries working under direction of a commission of The United Church and is being presented for adoption by the General Council.

With old age pensions schemes already enacted in several countries and in one Canadian province, British Columbia, the idea of proper provision for the ministers and their widows and orphans is one which is gaining acceptance in the churches. Some such plans have been in existence in the uniting churches for many years and the details of The United Church's plan will be studied with interest.

### ANOTHER BROKEN HEART

Motorist—"I'm sorry I ran over your hen. Would a dollar make it right?"

Farmer—"Well, better make it two. I have a rooster that was mighty fond of that hen and the shock might kill him too."—The Magnet.

### Simple Home Recipe For Bad Stomach Gives Swift Relief

If you are a victim of Stomach Troubles—Gas, Sourness, Pain or Bloating—you may have quick and certain relief by following this good advice.

Artificial digestants and starvation diets are seldom needed. Within reason most folks may eat what they like, if they will keep their stomach free from souring acids that hinder or paralyze the work of digestion. And the best and easiest way to do this is to follow every meal with a little Bismarck Magnesia—a pleasant, harmless form of Magnesia that swiftly neutralizes acidity and keeps your stomach sweet and clean.

A few days trial of Bismarck Magnesia (powder or tablets), which any good druggist can supply at trifling cost, should quickly convince you that fully 90 per cent. of ordinary stomach distress is absolutely unnecessary. Try Bismarck Magnesia today!

**W.I. MONTHLY MEETING**

The monthly meeting of the Millet Women's Institute was held at the home of Mrs. J. O. Anderson on Sept. 12th. Twenty-eight ladies were present, and the roll call was answered by funny sayings of children. After the usual business, plans were made for the constituency convention which is being held in the United Church, Wednesday, October 3rd.

Mrs. V. O. Rowley gave a very instructive paper on Canadianization and National Events, which was greatly enjoyed. At the close of the meeting a tempting luncheon was served by the hostesses, assisted by Mrs. Flinton.

The regular meeting will be omitted in October.

**OLD PEOPLE'S PENSION  
PLAN SUCCESS, E.C.**

Ottawa, Sept. 6.—Successful operation of the old age pensions plan in British Columbia is such as to encourage other provinces to adhere to it, according to reports received by the labor department and "one view" expressed there. British Columbia was first to go in on the scheme. It has been pensioning old people for some months. Saskatchewan started to do so in June, and Manitoba is now beginning.

**NOTICE TO ALBERTA FARMERS  
AND STOCK OWNERS**

Assistance is again to be given to Alberta exhibitors to compete at the Toronto Royal Show to be held November 21 to 29, 1928. The Dominion Department of Agriculture have agreed to pay 75% of the freight and the Alberta Department of Agriculture 25%. The Provincial Department will also pay exhibitors a sum of \$25 per head as feed allowance for horses and cattle and \$10 per head for sheep, selected by the representative of the Alberta Livestock Board with a maximum of \$250 to any one exhibitor. Persons having animals of outstanding merit of the stock mentioned and desirous of exhibiting are asked to communicate as soon as possible with a member of the Selection Committee. Committee—J. W. Durno, Alberta Livestock Commissioner, Department of Agriculture, Edmonton; J. C. Yule, Calgary; Professor Sackville, University of Alberta.

**ABOLITION OF EXAM-  
INATIONS URGED**

Abolition of examinations for high school boys and girls, except as tests for entrance to universities or to professions, was urged before the educational section of the British Association for the Advancement of Science, by Dr. Cyril Norwood, headmaster at Harrow.

"A properly inspected school could issue a certificate of satisfactory scholarship," he said. "The power to make such an award would imply a high standard on the part of the school, and perhaps a higher level of efficiency than now exists. In any system of examination, we must think of the slow-minded youths who suffer badly when they are forced by cramming to an unnatural level."

"Education is no longer the religion of the three R's. It is now the territory of another trinity—the hand, the eye, and the voice. It is the business of the primary school to teach the child to observe, make him do things, and to instruct him in speech and song. Then the child will have more capacity for true happiness and true intelligence."

**Heart Troubled Her  
Was Afraid to Walk  
Around the House**

Mrs. Henry J. Davis, 31 Princess St., Stratford, Ont., writes:—"A few years ago I was troubled very much with my heart and nerves; was all run down and became very thin indeed."

"I went to the doctor to get relief, but he did me no good. I then went to another and then to two more and still my heart and nerves were as bad as ever."

"I was completely discouraged when a friend told me to try

"I started right away and the first six months I had gained ten pounds, and now, to-day, I have no sign of any heart trouble."

"I always advise any of my friends to use your Pills ever since I was relieved of my trouble."

Milburn's Heart and Nerve Pills are 50¢ a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**THINK IT OVER!**

The purpose of work is not merely to make a living but to mold a life.

**MILLET LOCAL NEWS**

Miss Smith of Calgary, is the guest of Mrs. C. A. Kent over the week-end.

Rally Day, Millet United Sunday school, Sunday, Sept. 30th. Everyone welcome.

Mrs. Story of Edmonton, was the guest of Mrs. H. Brinker over the week-end.

The Misses Irene Anderson and Blanche Van Valkenberg of Edmonton, spent Sunday at their homes in Millet.

Mr. and Mrs. A. Gilmore of Edmonton, with Miss M. Dalstone and Miss Miller, were guests of Mrs. Graham on Sunday.

Mr. and Mrs. James Gourlay and daughter Laura of Lacombe, visited with Dr. W. J. and Mrs. Simpson on Monday.

Mr. J. R. K. Graham motored to Calgary on Wednesday with Mr. J. S. Kennedy, expecting to return early in the week.

Will all those who wish to contribute to the Wetaskiwin Hospital Bazaar kindly leave donations with Mrs. Plant.

Messrs. Gerald Roop, Jack Wright, Jack Parfett and Robert Foster of Edmonton, were out for a day's duck shooting at Roop's Lake.

Mr. and Mrs. C. H. Chapman and sons Robert and Hugh of Edmonton, were guests at the home of Dr. W. J. and Mrs. Simpson on Sunday. Mrs. Chapman is their daughter.

A very successful dinner was served in the Community Hall on Saturday by the Ladies' Aid of the United Church. They wish to thank all who contributed toward its success.

Mrs. Stuart McGibbon and little daughters Maxine and Naida, motored in on Sunday evening with Mr. and Mrs. Stewart of Hughenden, leaving for home again on Monday evening.

The W.A. met on Monday at the home of Mrs. Brinker, the president, Mrs. Bowker, being in charge. An outline of the fall work was planned. The next meeting will be at the home of Mrs. Bear.

Mr. Storey will give his farewell sermon in the Anglican Church on Sunday at 3 p.m. He leaves early in the week for Vancouver to enter the Anglican College in connection with the University of British Columbia.

The Times does commercial printing at right prices.

**TWO CROPS IN ONE  
SEASON IS POSSIBLE**

New York, Sept. 8.—Having guessed lilacs into blooming before their time, Dr. F. E. Denny, research director of the Bolco Thompson Institute at Yonkers, believes it possible to produce two crops a season.

Dr. Denny told members of the society of chemical industry that chemical treatment of certain plants during the annual dormancy of "rest period" had almost the effect of an alarm clock upon a sleeping person. The plants, he said, were thus awakened almost immediately to vigorous growth during the several months nature had set aside as times for their complete relaxation.

By placing lilacs in a room filled with chemical vapors for 24 to 48 hours he had caused them to bloom before Christmas, he said, something they had never done before in this part of the country. He expected this season to produce a second crop of Irish potatoes from the seed potatoes of the first crop.

Cloak-room attendant: "Did I give you the right coat and hat, sir?"

"No, thanks."

## ANGUS THEATRE

FRIDAY, 8 P.M. SATURDAY, 2:30, 7:30 and 9:30 P.M.

FRED THOMSON with SILVER KING in  
"KIT CARSON"

Indians on the war path sweep in majestic masses through the stirring scenes in the life of Kit Carson, the pioneer beloved by red and white man. The story of the love of this woodman for a girl of the dance halls and of an Indian maiden's unquenchable affection for him.

Comedy and Felix

MONDAY, TUESDAY, 8 P.M. SEPTEMBER 24 and 25

LON CHANEY in  
"THE HUNCHBACK OF NOTRE DAME"

Again, by popular demand, Universal's super colossal production of Victor Hugo's immortal classic, with a cast of 16 principals and thousands of extras. The greatest screen attraction of the age. Do not miss your last opportunity to see this great drama.

Comedy and News

THURSDAY, FRIDAY, SATURDAY  
SEPTEMBER 27, 28, 29, Matinee Saturday 2:30JACK MULLHALL in  
"THE BUTTER AND EGG MAN"

The story of a small town man who went to the city to see the sights, and of how he was fleeced by the confidence men, and of how in turn he fleeced them, makes a hilarious evening's entertainment.

NEWS  
HILLSIDE

The regular monthly meeting of the U.F.A. was held at the home of H. G. Young on Saturday evening last. There was a good attendance. Wm. Irvine, M.P., who was a visitor in the district, gave a short address, which was well received.

Those who are interested in the piano fund, will be pleased to hear that the committee have secured a piano.

Mr. and Mrs. J. West of Millet, were visitors in the district Sunday. Threshing in this district is well under way.

Mr. and Mrs. W. H. Webb had as their guests on Sunday, Mrs. Starkey and daughter Miss Mabel, and Mr. Doherty of Wetaskiwin.

COUNCILLOR CHARGED  
WITH FALSE PRETENCES

Drumheller, September 18.—H. B. Cleasby, a councillor of the municipality of Starland, in the Rowley district, appeared before Magistrate O'Connor at Rowley, Wednesday, charged with false pretences. It is alleged that Cleasby, in the capacity of road foreman, was paid \$28 in June, 1927, for work done by himself and that during that period he was not there, though the time sheet was made up and signed by him.

## BORN

DICKAU—In the Wetaskiwin hospital on the 18th inst., to Mr. and Mrs. Fred Dickau, a son.  
CALLIES—Near Gwynne, on the 13th inst., to Mr. and Mrs. Herman Callies, a daughter.

## HOSPITAL AID NOTES

At their meeting on Tuesday, the Hospital Aid Society made plans and arranged for their Bazaar which this year will be held on November 8th, in the U.F.A. hall. Owing to lack of space it was decided to dispense with the chicken supper for this year, but afternoon tea will be served and beside the usual booths there will be house-house and a chicken booth. It is to be hoped the friends who have so generously donated poultry to the supper will remember this and be equally generous this year. The Hospital Aid supply, linen and dishes for use at the hospital as well as many other things for the comfort of the patients and staff, and as the needs are all the time increasing according to the number of patients cared for, it is hoped all will join in making this bazaar a greater success than any held before.

## WOMEN'S INSTITUTE NEWS

The members of the Women's Institute are renewing their activities for the fall season. The September meeting will be held on Thursday, Sept. 27th, at 3 o'clock, and it promises to be an interesting one as Mr. C. H. Russell, one of our city lawyers has kindly consented to give a talk on legislation and will explain some of the laws affecting women and children. The ladies of the city and surrounding district are cordially invited to attend this instructive meeting, and also enjoy the music and social time.

Bad Legs  
Read This! If You Have  
Varicose Veins

If you or any relative or friend are worried or suffer because of varicose veins, or bunches, the best advice that anyone in this world can give is to get a prescription that literally hundreds of people all over the country are using with complete satisfaction.  
Simply ask your druggist for an original two-ounce bottle of Emerald Oil and apply night and morning to the swollen, enlarged veins, rubbing gently upwards and towards the heart as the blood in the veins flows that way. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. Emerald Oil is a powerful, yet harmless germicide and results are guaranteed by all good druggists.
